HELP US!  
902 33 15 33

WE NEED YOU  
TO MAKE IT  
POSSIBLE

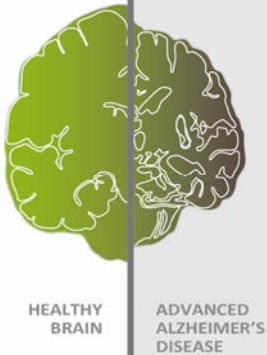

ALZHEIMER'S  
TARGET  
IS THE TOOL  
WE NEED  
TO BEAT IT

# ABOUT ALZHEIMER

- Has an unknown origin, cause or trigger
- Cannot be prevented and is usually diagnosed very late
- There is no hold it back cure nor treatment to
- Arises as one of the big challenges of the 21st Century

Increased life expectancy has turned Alzheimer's Disease into an epidemics.

- Affects **24 million** people worldwide
- the 10% of the world's population are over 65 years old
- 50% of the population over 85 years old have the disease

Neurodegenerative diseases affect millions of families and carers, accounting for the longest disability generated, in term of years.

## WE WILL BUILD AN EXCELLENT RESEARCH INSTITUTE ON ALZHEIMER'S AND OTHER NEURODEGENERATIVE DISEASES

- With the ambition to become a **benchmark** institute in prevention, treatment and cure
- Promote **new** research policies in our country
- Develop **different, innovative** projects
- Join the **best** young scientists worldwide
